## Keepsake Greeting Cards and Assorted Gifts

Paula LaMont's wide collection of greeting cards and gifts stem from her love for cooking, gardening and painting. She is inspired by nature, and in reference to her work says, "I believe we are drawn to images of nature because as human beings we need nature to be part of our daily lives. I believe my art brings those images to people in a positive, colorful, and joyful way." Each one of her keepsake greeting cards showcases those passions through her watercolor paintings on the front, and original recipes on the back. Other gifts by Paula include aprons, cooking journals, and gardening journals. Her debut cookbook illustrated with her artwork is scheduled for release in 2007. However, a sampler of the recipes from her upcoming cookbook can now be found in the cooking journals.
